

Punched Rail

Lets be Precise - Orrcon Steel's punched rail will save time and money

CALL US ON 1300 ORRCON

www.orrcon.com.au

Let Orrcon Steel do the hard work for you.

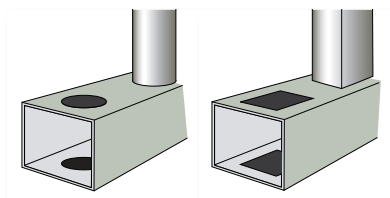

Orrcon Steel now supplies pre-punched galvanised steel which can be used for:

- Pool fencing
- Domestic fencing
- Commercial & industrial fencing
- Security fencing
- Balustrades
- Safety barriers for road and railway stations
- Gates
- Privacy screens

Benefits of Orrcon Steel's Punched Rail

- Saves time and operating cost
- Precision pre-punched for easy & accurate picket assembly
- Large range of assembly standard precision pre-punched hole centres.
- Manufactured from quality Australian made mild steel Galvabond® tubing
- Do away with costly machinery maintenance & OHS issues

Example of round and square punched rail.

Punched Rail Capabilities

CAPABILITY	1.6 mm	2.0mm
Section	30X30 - 80X40	30X30 - 80X40
Punch profile	Double or Single sided	Double or Single sided
Length	2 metre to 6.5 metre	2 metre to 6.5 metre
Hole Dimensions	Max of 25.4mm ²	Max of 20mm ²
Centres	Unrestricted	Unrestricted
Gap	Unrestricted	Unrestricted

Any size tube may be punched subject to sufficient volumes, please contact your nearest branch for more information.
